

# Capability Statement 2018

**E**co Certificates Pty Ltd is an established building energy efficiency and sustainability consultancy firm & one of the leading service providers in its specialised area of practice in Australia. We've been servicing building professionals from various disciplines for all types of residential and commercial buildings for over 9 years and experiencing constant growth and progress in our business and quality of service.

# AREAS OF SERVICE

## **1. BASIX Certificate**

We've issued hundreds of complex BASIX certificates over the years. Combined this by our constant regulation research, we know all about it.

## **2. NatHERS Thermal Comfort Modeling**

We've been doing NatHERS thermal modeling for as long as this scheme exists. Our job is to deliver the most economic solution based on our clients' preferences.

## **3. BCA Section J Deemed to Satisfy Compliance Report**

For the most detailed and bullet proof assessment of compliance with section J of the BCA look no further. We do highly complex assessments on a daily basis.

## **4. BCA Section J, JV3 Alternative Verification Solution**

When things not working well with a normal section J solution, we perform very advanced JV3 computer modeling to get you out of any unfavourable scenarios.

## **5. NABERS Rating**

Our NABERS assessors can provide you with the most streamlined and clear road map to obtain your NABERS rating and certificate

## **6. EnergyPlus Building Energy Modeling**

Sometimes only the most advanced and sophisticated building energy computer modeling available can satisfy specific regulations. This is where we got you fully covered.
